Art Unit: 1711

1. Claims 1-12 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicants have failed to specify the type of molecular weight (weight average or number average) or the means by which it has been determined. Applicants' deletion of the molecular weight from the claims has not adequately addressed the issue. Furthermore, to the extent that the disclosed molecular weight is enabled, the claimed polyurea has been enabled only for a molecular weight of at least 5000.

2. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Within claims 1 and 10, it is unclear what species are being referred to by "thereof" and "these materials".
